

## PASTOR DECISION GUIDE

### Who We Are

We are a unique Church App company; instead of just sending you a login to our software we assign a professional designer to every church app. Your designer will do all the technical setup and design work on your app, insuring your complete satisfaction. Your designer works with you for the life of your app, so you're never left alone!

### Why Choose Apollo Apps To Build Your Church App?

100% SATISFACTION GUARANTEE - CANCEL ANYTIME

5 STAR REVIEWS ACROSS THE BOARD

A PERSONAL DESIGNER SETS UP & DESIGNS YOUR APP

SUPERIOR, AWARD WINNING SUPPORT

STRAIGHT FORWARD PRICING, NO HIDDEN FEES

## What does the process look like?

1. Answer a few questions about your church and preferences.
2. Your personal designer will send your app in 4-5 business days.
3. Work with your designer on edits directly from your backend.
4. We'll publish your app (takes 7-14 days to go live on iTunes)

After your app goes live, we'll send you some free marketing materials and help you get the word out. Support is available via phone, live chat, or directly through your designer.

# What Other Churches Say About Apollo Church Apps?

5.0 ★

7,068 Trusted

"I cannot say enough about this company...they have been amazing...again and again they have went way over and beyond what I thought they would to make this such a great experience and great product. They were highly responsive to edits and no matter how picky I was, they always responded – 'we will keep updating until you think its perfect.' I highly recommend Apollo Apps for your church app! Check out their work on our app Bolton Alliance Church."

Alliance Church."

– Paul Ireland

"Apollo Apps has been great to work with, both at the district level and the church level! We enthusiastically support and recommend them to our district churches to build their church app! It's very easy to post content in a timely fashion and the push notifications ensures that we are able to get noticed. They handle all the publishing to the app stores so it's seamless and easy. The setup is easy even for the non-technical people and the integration of giving is effortless. A few simple questions and you're up and running in about a week!"

– Brian Gowing
